That our American rorests abound in plants which possess the most valuable medicinal virtues is abundantly attested medicinal virtues is abundantly attested by scores of the most eminent medical writers and teachers. Even the untu-tored Indians had discovered the useful-ness of many native plants before the advent of the white race. This informa-tion, imparted freely to the whites, led the latter to continue investigations until to-day we have a rich assortment of most valuable American medicinal roots.

Dr. Pierce believes that our American forests abound in most valuable medicinal roots for the cultoof most obstinate and fatal diseases, if we would properly investigate them and in behingable of this conviction, he points with pride of the almost markelons cures effected by his "finding Medical Discovery," which has proven itself to be the most efficient strength from the large invitoring alor, heart tonic and regulator, and blood cleaner known to medical science. Dyspersia, or indicession, torpid liver, functional and even visualar and other affections of the heart yield to its curative action. The reason why is cures these and many other affections, is clearly shown in a little book of extracts from the standard medical works which is mailed free to any address by Dr. R. V. Pierce, of Butfalo, N. Y., to all sending request for the same. 0.00 C4 0 0

SUGGESTION AS A CURE. "The spread of Eddyism and the Emanuel movement merely emphasizes the fact that we have another potent weapon at our command," said Dr. William H. Dieffenback, of New York, in his annual presidential address on Tuesday to the National Society of Physical Therapeutics, affiliated with the American Institute of Homeopathy, which is in session in Detroit.

"The use of suggestion to patients," continued the doctor, "should be studied and taught, as should every other agent promising relief in the cures of the sick.

He asserts that to confine the medical profession to drogs, surgery or any other system slone "is a crime to man-kind and the time is not far distant when liberality and breath of view in medicine will reap its reward."

indispensible agent in the diagnoses of diseases and said that the ray had been used advantageously in the treat-ment of tuberculosis. Dr. F. C. Robbins, of the New York State Lunacy Commission, in a paper read before the society of Neurology and Psychiatrics, said that it has been found that a form of insanity is caused by tuberculo-sis. Those cases which had come under his observation were the result of negligence on the part of the patient's family or family physician in allowing him to exhaust all vitality before seekthe doctor said, were those where the The three story brick at absence of insanity in the family.

> A JUVENILE BLACKHANDER. Rudolf Berndt, 14 years old, was fatally wounded by the Chicago police Wednesday night, following an attempt on his part to imitate "Black Hand" methods and get money by means of threatening letters.

Threats by telephone followed and the grocer again called the police. Another meeting was appointed for Wednesday night. Policemen were hidden near the des grated place. As Grossfeldt approached the place a boy stepped out of a doorway and asked: "Is this Mr.

and the boy snatched the package and fled. Detective Weinrich, who was across the street, fired two shots. One hit the boy and he fell fatally wounded. As he lay on the side walk he tried to shoot

the detective. At the hospital he confessed before he fied, naming his cousin, Alfred Hasse, 16 years old, in the plot. Hasse was standing near at the time of the shoot-ing. He was arrested later. Grossfeldt went to the hospital and

the dying boy said: "Please Mr. Gressfeldt, forgive me and kiss me before I die.'

Grossfeldt complied with the request and a few minutes later the boy passed
